UPS RENTAL SERVICE PVT. LTD.

G-12, Ansa Industrial
Estate, Sakinaka Road,
Sakinaka, Andheri (E),
Mumbai - 400072,
Maharashtra, India.

ABOUT COMPANY

We strive to be one of India's top 50 firms and are a recognised leader in the provision of dependable and effective UPS system solutions. To provide cutting-edge solutions, our team of knowledgeable professionals draws on their extensive industry experience and keeps up with the most recent developments. Our focus is on providing customised services for organisations of all sizes, and customer happiness is our top priority. In addition to renting UPS systems, we also provide installation, maintenance, and technical assistance. In order to guarantee an uninterrupted power supply and support the success of our clients, we are committed to ongoing improvement and sustainable solutions.

WHAT WE DO?

- Wide range of capacities available: 10 kVA to 10 MW
- Ensures uninterrupted power supply for businesses
- Particularly beneficial for temporary power solutions.
- Provides scalability and flexibility
- Professional installation and maintenance services included
- Reduces downtime and ensures business continuity
- Cost-effective alternative to purchasing and maintaining a UPS
- Predictable costs with no upfront capital investment.
- Reliable power backup to protect against power-related disruptions
- Supports uninterrupted operations for businesses.

WHY US?

We are delighted to introduce our company as a rapidly growing enterprise that focuses on providing comprehensive UPS system rental solutions. With a remarkable cumulative experience of over 25 years, our team comprises exceptionally skilled experts who are dedicated to serving the industry with utmost commitment and proficiency. From the day of our inception, our primary goal has been to provide unmatched services to our valued clients, consistently striving for excellence.
